Closed Structure Heavy Duty Industrial Rack For Warehouse Storage Management Solutions

Our Product Introduction

Basic Information

Product Specification

- Model NO.: QIFEI-Heavy Duty Rack
- Material: Steel
- Structure: Rack
- Type: Pallet Racking
- Mobility: Adjustable
- Height: 0-5m
- Weight: 500kg
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 15 Days
- Raw Material: Q235
- Surface Treatment: Powder Coating
- Transport Package: Safe

Product Description

***Note: The specifications, sizes, colors and surface treatments of the products can be customized!**

Industrial Warehouse Heavy Duty Steel Racking are suitable for those who want to store heavy items, our heavy duty warehouse racks can be produced in different sizes, colors and load bearing. The load capacity of heavy duty pallet steel frame is usually 1000-5000kg or even heavier. Three types of shelves can be choose: steel mesh, steel plate, wooden. The height of each layer can be adjusted by itself, and the end and end can be connected infinitely to save costs.

Heavy Duty Pallet Racking Systems are a highly durable and reliable storage solution for businesses that need to store heavy and bulky items. These systems are made from high-quality steel and can withstand significant weight loads.

The system is designed to hold standard-sized pallets and can be configured to fit any warehouse space. The upright frames and cross beams are connected by heavy-duty bolts and are available in various sizes to accommodate different load capacities.

Heavy Duty Pallet Racking Systems offer a range of accessories such as wire decking, pallet supports, and row spacers, allowing you to customize the system to fit your specific storage needs. They are also easy to install and can be adjusted as your business grows or your storage needs change.

In summary, the Heavy Duty Pallet Racking System is an excellent storage solution for businesses that need to store heavy and bulky items. With its high-quality steel construction, customizable configuration, and range of accessories, this system is an ideal choice for businesses looking for a durable and reliable storage solution.

If you use pallet to pack your goods, this type racks will be very suitable.its a good solution to make full use of your warehouse space.
Loading capacity can be 1000kg-5000kg per level, each level distance can be adjusted.
Racks' size is depends on pallet's size, normally 1 level will storage 2-3 pallets. For height, our factory can make up to 11 meters, in this way you can make use of your warehuse'height
Parts: Upright frame and Beam. Some of our clients will choose some equipment too: Cross bar/ wire mesh shelves/ wood shelves.
Popular pallet size:1200W*800D mm; 1200W*1000D mm; 1200W*1200D mm

Advantages and Features:

* Optional Shelves Steel, Wooden, Steel Mesh, Pallet Etc.
* Prevent Goods from Falling
* Easy to Assemble
* Option Size
* Heavy Load
* High Quality Cold Rolled Steel Q235b
* Double C Beam
* Pickling Phosphating
* Using Forklifts to Store and Pick Up Goods, Easy for Cooperation

Material	Cold-rolled Steel Q235B
Product size	Length: 2300 / 2500 / 2700 / 3000 / 3300 / 3600 / 3900mm Width: 800 / 900 / 1000 / 1100 / 1200mm Height: 2000 ~ 6500mm (can be custom made)
Thickness	column:1.5mm, 2.0mm
Load capacity	1000KG~5000KG per layer

Layers	2-5 adjustable layers (can be custom made)
Color	RAL color; As per customer's requirement
Surface	Electrostatic spray surface
Feature	Anti-rust, Corrosion-protection
Guarantee period	5 years warranty
Remark	OEM&ODM accepted
Relevant Certificate	CE
Use area	Warehouse, factory, storage place
Structure	Knock down structure, easy assembling, convenient for delivery
Function	storage goods, rack, storage
Product range	warehouse, storage place

Packaging & Shipping
