# Open Electric Mobile Pallet Racking For High Space Utility In Warehouse Storage System

Our Product Introduction

## Basic Information

## Product Specification

- Model NO.: QF-Mobile Racking
- Type: Pallet Racking
- Mobility: Fixed
- Height: 5-15m
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 20 Days
- Raw Material: Q235B
- Surface Treatment: Galvanized/Powder Coating
- Transport Package: Standard Export Packing
- Specification: Customized
- Trademark: Customized
- Origin: China Nanjing

## Product Description

Product Description

**Mobile pallet racking(MOVO):**

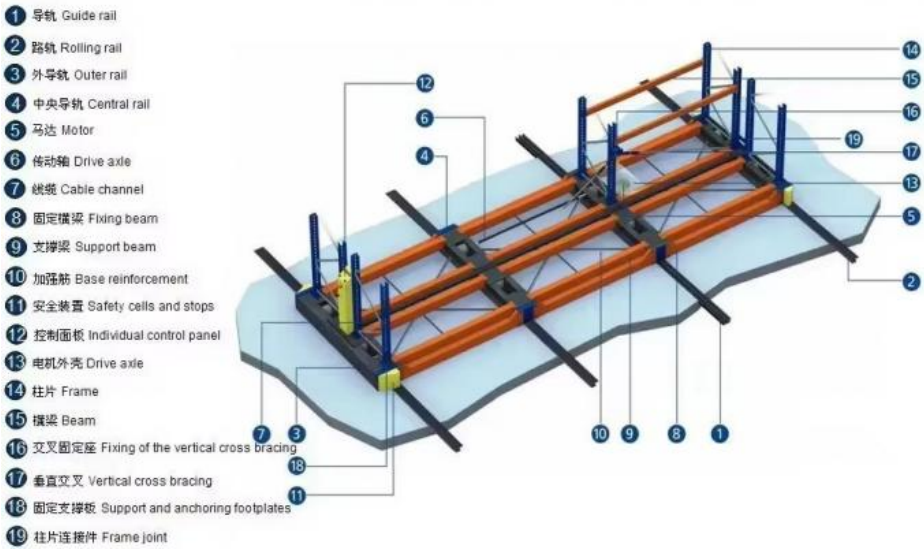
Also known as mobile shelving or compact storage, is a type of storage system that utilizes motorized or manual-powered mobile carriages to move shelving units back and forth,commonly used in various industries, such as warehousing, distribution centers, archives, libraries, and museums, where space optimization and efficient storage are crucial.

| | |
|---|---|
| **Dimensions:** | Trolley length: up to 90m<br>Rack height: up to 15m<br>Bay width: up to 5.000mm |
| **Loading:** | Bay load: up to 30 tons<br>Shelf load: up to 6 tons<br>Speed: up to 4.2 m/min |
| **Operating temperature:** | -30°C to +40°C (optional down to -40°C) |
| **Connectivity:** | Use WMS |
| **Standards:** | Designed in accordance with the European Directive 2006/42/EG and DIN EN 15095. |

| **Type** | | | |
|---|---|---|---|
| **Run Mode** | Manual-drive | Motor drive | |
| **Structure** | Open | Semi-open | Closed |

Detailed Photos

Mobile Racking (MOVO) is a dynamic solution providing up to double the storage capacity in the same area, of conventional pallet racking. Offering technical superiority and total flexibility, MOVO is suitable for every kind of stored goods, and has a wide range of accessories.

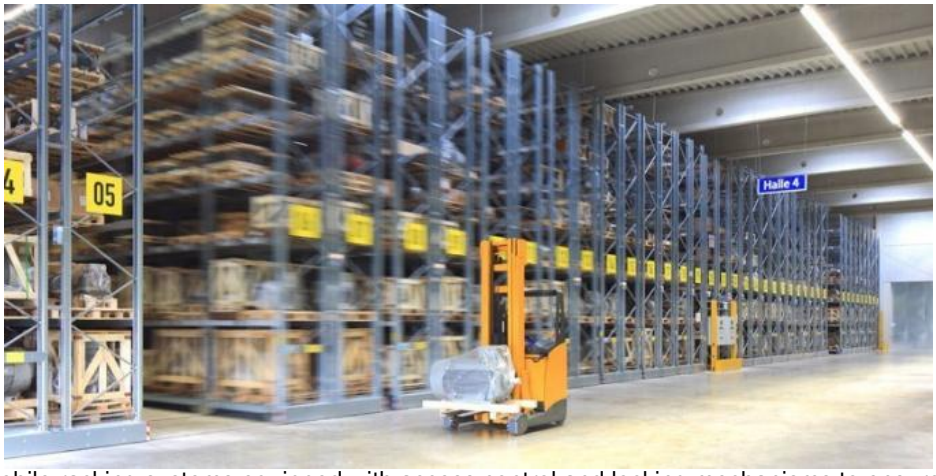


**Key features of mobile racking:**

1,Space Optimization: By eliminating the fixed aisles between stationary shelving units, mobile racking increase storage capacity by up to 100% in the same floor area.

2,Accessibility: The movable shelving units allow for easy access to stored items, as the aisles can be opened only when needed.

3,Flexibility: Mobile racking systems can be customized to accommodate different shelf sizes, load capacities, and integration with other storage equipment.



4,Security: Mobile racking systems equipped with access control and locking mechanisms to ensure the security of the stored items.

5,Improved Workflow: The efficient use of space can streamline material handling and logistics, leading to increased productivity and reduced operational costs.

The electronically controlled MOVO high-load racking system runs on in-ground rails and can carry bay loads of up to 24 tons at racking heights of up to 15 meters. While state-of-the-art sensor technology and variable control options ensure ease of operation and absolute safety.
